Ok

LOV Wizard
LOVs get their data from Record Groups, which may be populated using SQL queries, or by entering a static list of values.
Do you want to base your LOV on a new Record Group, or use an existing Record Group? If you want a new Record Group, you must base that Record Group on a SQL query.
New Record Group based on a query

LOV Wizard
Record Groups can be based on SQL queries. Do you want to enter or modify the query that your LOV's Record Group uses?
If so, you may use the Oracle Developer Query Builder by clicking Build SQL Query. Or, you may enter your query directly into the SQL Query Statement field below.
Build SQL Query...
Import SQL Query...
SQL Query Statement
select first_name from employees
Connect...
Check Syntax...

LOV Wizard
What title would you like to display in your LOV window?
Title: name
What size would you like your LOV to be? The units for the LOV size and position are Points.
Width: 300
Height: 158
Do you want Forms Runtime to position your LOV?
Yes, let Forms position my LOV automatically
No, I want to position it manually
